Trusted Ceiling & Partition Specialists

Over 20 years of experience across Ireland and Europe

Expert installation, built for performance

We deliver suspended ceilings, partitions, and technical systems for commercial and high-performance environments.

Reliable, flexible, efficient

We offer full supply and install packages or labour-only services, adapted to your timeline, budget, and site requirements.

Solutions that work

From MF ceilings and acoustic panels to cleanroom systems and commercial partitions, our installations are built for long-term durability, compliance, and seamless coordination.

Ceiling Systems Built for Every Environment

Trusted solutions for commercial, industrial, and high-tech projects

At DLS Interiors, we install ceiling systems tailored to modern commercial, retail, industrial, and data centre environments. From MF ceilings and metal grid systems to acoustic panels and structural supports, our work ensures smooth integration with other trades.

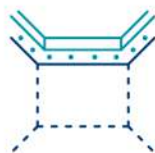

Installed to spec, built around you

We offer flexible options including full supply and fit or labour-only services.

Systems we install

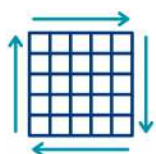

**Zentia Grid
Ceilings**

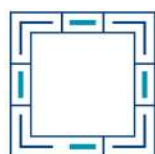

**CasoLine MF
Ceilings**

**Unistrut
Structural Grids**

**Tate Grid
Systems**

**Gordon Grid
Systems**

**SAS Metal
Ceilings**

Partitions That Perform

High quality systems for every commercial and technical space

Our partition systems are designed to meet the needs of any commercial or technical environment. Whether you need modular demountable systems, acoustic walls, or fire-rated panels, we deliver reliable solutions that meet strict building standards and support long-term performance.

Installed to your spec, your schedule

Whether you need supply and fit or site ready labour, we adapt to your requirements to ensure a smooth and efficient install.

Systems we install

HACS Installation Specialists

Improving airflow, energy use, and equipment protection

We install Hot Aisle Containment Systems (HACS) to help clients improve airflow efficiency, reduce energy consumption, and protect vital equipment. Our expert team ensures each HAC is fitted to the highest standard and fully integrated into your existing technical infrastructure. These systems are ideal for high density commercial and data centre environments where performance, safety, and long term reliability matter most.

✓ Improved cooling

✓ Lower energy use

✓ Protects equipment

✓ Supports high density

✓ Better airflow

✓ Greater reliability

Proven Results Across Ireland and Europe

Trusted ceiling and partition solutions for complex commercial builds

Our teams have delivered ceiling and partition systems for some of the most demanding projects in Europe. From retail units and cleanrooms to data centres and office refurbishments, we provide functional, durable, and regulation compliant installations.

Trusted on major projects for leading global brands

We've worked as trusted subcontractors on high profile construction projects for end clients such as Microsoft, Google, Meta, and Diageo, helping main contractors deliver premium, high performance spaces.

Why Work With Us

Reliable partnerships built on precision, trust and delivery

At DLS Interiors, we understand what's needed to succeed on fast-paced, compliance-driven builds. From schedule planning to technical coordination, our team keeps your project moving.

We support contractors, developers, and facilities managers with efficient delivery, open communication, and proven results.

Backed by experience, trusted across Europe

With 20+ years of experience and a track record working with global brands, DLS Interiors brings the professionalism and expertise your project needs.
